

TAKE THE DRIVE OF YOUR LIFE!

The exciting, new Pro-Cup Racing Simulators bring realism to incredible new levels!

These are REAL 2/3 scale stockcars! The high-torque, force-feedback steering gives the driver a true sense of G-Force, Tire Slip and Vehicle Response. This is NOT the "watered-down" stuff found in racing centers or arcades! So real, you may even experience arm fatigue, just as if you were on the track!

- *High-Torque Force Feedback Steering*
- *Engine/Track Vibration Feedback*
- *6-Position Sequential Shifting*
- *Fully Functional Analog Display*
- *Dash Panel with Working LED*
- *Indicators, ignition and Auxiliary Switches*
- *4-Channel 400 Watt THX 3D Surround Sound*

PLUS, You get TWO (2) Pro-Cup Racers linked together for "Head-To-Head" racing action!
